

**EXAMINER'S AMENDMENT**

Because of the petition decision of 10/10/08, upholding Applicant's argument that the inventions are unitary and not separately patentable, **the restriction requirement as set forth in the Office action mailed on 6/28/07 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In the Claims:**

Claims 1-13 have been rejoined.

**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: it would not have been obvious to one of ordinary skill in the art at the time the invention was made to claim the different claimed steps of instant claim 14 (see Applicant's response of 6/16/08), in view of the patented claims of US 6,084,148.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
